Written by nurse experts from across the profession, this guide facilitates teaching and instruction in both nursing courses and the professional development activities of hospitals and healthcare organizations.

Other chapters set the context with discussions of ANA’s scope of nursing practice, the nursing standards as a whole, and nursing's social policy statement, each with case studies, discussion topics, and Power Point presentations. In professional practice settings, this instructional guide also offers added value to healthcare facilities that are pursuing excellence.

Publication Year: 2012
