Neurological Clinical Examination

Provides a practical guide to the clinical neurological examination, an essential tool in the diagnosis of common and unusual neurological conditions encountered in the outpatient clinic and hospital ward.

- Each chapter covers a different condition and uses a step by step approach selecting those aspects of the clinical examination which are most likely to lead you to the correct diagnosis
- The text is heavily illustrated with clear diagrams
- Tables are used to list the various causes of particular signs
- Key features of the neurological examination which help in reaching the correct diagnosis
