Neurology of AIDS, The

From basic science to clinical care, to epidemiological disease patterns.

The Neurology of AIDS is the only complete textbook available on AIDS neurology and the only one comprehensive enough to stand alone in each segment of study in brain disorders affected by the human immunodeficiency virus. It is an indispensable resource for students, resident physicians, practicing physicians, and for researchers and experts in the HIV/AIDS field.

Publication Year  2011
Edition  3rd
