Maternal and Child Health Nursing: Care of the Childbearing and Childrearing Family

Presenting maternal-newborn and child health care not as two separate disciplines, but as a continuum of knowledge, the book presents the experience of wellness and illness as family-centered events and pregnancy and childbirth as periods of wellness in a woman's life. Using a nursing process framework, the book's clear, easy-to-understand presentation and wide range of built-in learning aids is designed throughout to help you master important concepts and skills.
