This official publication of the Association of Women’s Health, Obstetric and Neonatal Nurses (AWHONN) presents up-to-date information based on the most rigorous evidence and offers suggestions for best practices.

This new edition of the authoritative, comprehensive text used by perinatal nurses worldwide features a wealth of new content to keep practice current.

New chapters related to patient safety aid the development of a highly reliable perinatal unit, inform nurses how to conduct team training and drills for obstetric emergencies, create checklists, and effectively handoff patients. It features expanded coverage of high-risk pregnancy, from bleeding in pregnancy to preterm labor and birth, diabetes, cardiac disease, pulmonary complications, multiple gestation, and maternal-fetal transport. An all-new chapter on obesity in pregnancy covers risks to the mother and fetus, care from preconception to postpartum, as well as bariatric surgery. An expanded chapter on newborn nutrition includes new sections on the infant feeding decision, benefits of breastfeeding, nutritional components, and preterm milk and lactation.
