The most reliable resource available for healthcare, including medical students, physicians, educators, researchers, and medical language specialists.

This new edition includes more than 107,000 terms and definitions, more than 5,000 new to this edition. More than 45 consultants from all the major medical and health science specialties have reviewed each word for accuracy and clarity, including new consultants for the specialties of endocrinology, gastroenterology, geriatrics, and rheumatology. The art program has also been extensively enhanced and now includes approximately 1,500 images and illustrations.

Readers will recognize the authoritative content contained in this new edition, and want to add it to their list of must have references.
