Heart Failure: A Case-Based Approach

This is a highly visual, case-based approach that covers the spectrum of the clinical presentation of heart failure.

Features:
- Over thirty expert authors offer a practical, visual approach to common but complex management problems in heart failure
- Demonstrates real-world clinical management decisions and applications of current guidelines and evidence through case presentations
- Discusses assessment and treatment of newly diagnosed and chronic cases of heart failure
- Addresses heart failure associated with the gamut of cardiac diseases and in patients with systemic diseases
- Provides links to video loops of select procedures
