Aesthetic Plastic Surgery of the East Asian Face

Rely on Ovid as the trusted solution that transforms research into results

Written and edited by world-renowned aesthetic plastic surgeons, this book presents cutting-edge techniques for performing plastic surgery on East Asian patients.

The author, a well-regarded surgeon in Korea, has compiled an outstanding clinical reference covering the latest techniques used in plastic surgery of the East Asian face, including: rhinoplasty, Asian eyelid surgery, facial contouring, and aging face surgery. In addition, this book covers the rapidly changing non-surgical treatments of botulinum toxin, fillers, and lasers.

Key Features:

- Only includes techniques that are proven to be safe and clinically effective
- Covers all the major facial plastic surgery procedures performed on East Asian patients
- More than 850 full-color intraoperative photos and high-quality illustrations demonstrate techniques and procedures described in the text

This book is an essential reference for aesthetic plastic surgeons and fellows interested in optimizing outcomes for their East Asian patients. It is filled with the insights, wisdom, and experience of leading experts in East Asian facial plastic surgery, and will surely be kept close at hand as a refresher, training guide, and atlas of facial plastic techniques.
