Systemic Disease Manifestations in the Foot, Ankle, and Lower Extremity

Rely on Ovid as the trusted solution that transforms research into results

Recognize when lower extremity disorders signal a larger problem.

Systemic Disease Manifestations in the Foot, Ankle, and Lower Extremity is the first clinical reference focused on helping you recognize when lower extremity symptoms indicate the presence of cardiovascular, neurologic, dermatologic, musculoskeletal, endocrinologic, infectious, or other systemic disorders. An impressive roster of multidisciplinary experts guides you through what to look for and how to confirm your diagnostic suspicions. The result is an indispensable resource that can facilitate early detection and timely treatment.

Key Features:

- Visually identify telltale indicators of systemic disease thanks to an abundance of color photographs, as well as concise descriptions of diagnostically significant features.
- Consider all the options through in-depth chapters that span the gamut of systemic disorders which can manifest in the lower extremity.
- Glean information quickly with the aid of at-a-glance tables and a concise format.
