Nursing Professional Development for Clinical Educators examines the ever-changing scope and standards of NPDS practice and the healthcare trends that influence the NPDS role.

Nursing professional development specialists (NPDSs) and unit-based educators are integral to the development and performance of healthcare professionals in a variety of clinical settings and specialties. Yet, in today’s healthcare workplace, delivering effective education can be challenging. This book provides essential guidance in understanding the roles and responsibilities of nursing staff development, orienting nursing staff to the clinical unit, developing educational programs, and helping staff develop as professionals.
