Prepare for the oncology boards with confidence!

This comprehensive review book closely follows the contents of DeVita, Hellman, and Rosenberg’s Cancer: Principles and Practice of Oncology, 10th Edition, including brand-new, state-of-the-art topics. Hundreds of multiple choice and case-based questions cover medical, radiation, and surgical oncology, as well as hematology, diagnosis and staging, molecular biology, immunotherapy, targeted therapy, and more. Key Features:

- All questions have been completely revised to mimic the common formats you’ll see on the exam.
- Detailed answers with explanations are provided for every question, helping you understand the “how” and “why” behind each correct response.
- Content reflects the most current information from the leading oncology text, with corresponding chapters to DeVita, Hellman, and Rosenberg’s Cancer: Principles and Practice of Oncology, 10th Edition provided for further review.
