This new volume of The Core Curriculum Series is an indispensable guide for radiology residents' pediatric rotations and an excellent study tool for written boards or recertification exams.

Like other volumes of The Core Curriculum Series, the book focuses on one rotation area and covers the essential information readers need to do well on the boards. The book is organized by anatomic system and presents key information about evaluation of various diseases with all current imaging modalities. The user-friendly format includes hundreds of illustrations, margin notes, key review points, chapter outlines, tables, bulleted lists, boxed text, and an easy-to-follow layout.
