This volume contains a wide range of essays by leading neuropsychologists and cognitive neuroscientists to honor Alexander Romanovich Luria.

This is a collection of essays by leading neuropsychologists and cognitive neuroscientists to honor Alexander Romanovich Luria and to highlight the enduring impact of his legacy on cognitive neuroscience and clinical neuropsychology. A wide range of topics is covered, from functional neuroimaging in neuropsychology to bedside evaluation techniques. Several generations of neuropsychologists and cognitive neuroscientists are among contributors, including those who closely worked with Luria, their own students, and others influenced in their work by Luria’s pioneering insights.
