The European Handbook of Neurological Management, published in collaboration with the European Federation of Neurological Societies (EFNS), is a unique book that brings together peer-reviewed guidelines for the treatment and management of neurological disease.

For the first time, neurologists can find advice on management aspects of most neurological disorders that is either evidence-based or, where the evidence is inadequate, the consensus guidance of an international European panel of experts.

The guidelines fall naturally into sections that cover:
* Investigation: cerebrospinal fluid analysis, imaging, diagnostic antibodies and skin biopsy
* Neuromuscular diseases: motor neuron disease, inflammatory neuropathy, muscular dystrophy and myasthenia gravis
* Infections: HIV infection and encephalitis
* Neurological problems: treatment of neuropathic pain, acute relapses of multiple sclerosis and status epilepticus, to name but a few
* Sleep disorders: Narcolepsy, other sleep disorders and restless legs syndrome
* Cognitive rehabilitation.

**Publication Year** 2006

**Edition** 1st

**Author/Editor** Hughes, Richard; Brainin, Michael; Gilhus, Nils Erik

**Publisher** Wiley

**ISBN** 978-1-405-13050-9

**Platform** OvidMD, Ovid

**Product Type** Book

**Speciality** Neurology

**Language** English

**Pages** 640

**Illustrations** 0

**Included In** Wiley Neurology Book Collection
