Designed as a companion to the Manual of Medical Therapeutics, addressing the most common encounters in outpatient internal medicine—such as hypertension and diabetes.

Disorders treated in the ambulatory setting fall outside traditional internal medicine; therefore, chapters also cover dermatology, otolaryngology, neurology and psychiatry and ophthalmology. The 2nd edition includes a complete update of all chapters.

- Color-enhanced, templated chapters for easy lookup and enhanced readability
- Evidence-based chapters
- Tables and figures guide readers through evaluation and management of the most common medical problems encountered in outpatient internal medicine

Publication Year: 2015
Edition: 2nd Ed.
