Radiologic and Imaging Nursing: Scope and Standards of Practice

Co-published with the Association for Radiologic and Imaging Nursing and ANA, this new edition contains up-to-date information on this exciting and dynamic specialty that combines cutting-edge technology with the art and science of nursing.

The 16 standards are those by which all RNs in radiologic and imaging nursing are held accountable for in their practice. Each standard is measurable by a set of specific competencies that serve as evidence of minimal compliance with that standard.

This is a must-have title for radiologic and imaging nursing practitioners, educators, students, and other healthcare workers directly involved in this area of practice. It is a core resource for the nurses practicing in this area.
