Applications of Chinese Herbal Compatibility

This manual provides a detailed explanation on the combining of 120 compatible herb groups in combination with the analysis of their function, application and compatibility.

The text includes abundant case studies with detailed discussions on the use of herbal medicines according to symptom differentiation according to specific herb patterns. There is also an explicitly detailed explanation of the compatibility application of Chai Hu Tang (Bupleurum Decoction) and Xiao Chai Hu Tang (Minor Bupleurum Decoction) based on the author’s clinic experiences.
