This book gives the reader an up-to-date, clear and logical idea of what caring for parkinsonian patients entails - a challenge that clinicians will face for many years to come.

The book is split into three sections:
* Section 1: A compilation of the major brain lesions typically seen in PD
* Section 2: Treatment options in PD
* Section 3: 25 cases designed to test the reader and the practical application of the information supplied in the other sections.

**Publication Year** 2009  
**Edition** 1st  
**Author/Editor** Schapira, Anthony; Hartmann, Andreas; Agid, Yves  
**Publisher** Wiley  
**ISBN** 978-1-405-19601-7
