Topics in Quality Assurance for Pharmaceuticals

Stay current on the ever-changing pharmaceutical regulatory environment with 10 audio recordings of industry experts offering practical guidance on quality assurance issues.

Ovid and FX Conferences offer thousands of professional development hours for your teams, conveniently packaged and delivered as a collection of audio recordings to save you time and money.

Topics in this collection have a global appeal and are relevant for multiple departments within your organization—R & D, Market Research, Compliance, and more. Each of the 10 recordings consists of a 45-minute, telephone-based presentation delivered by expert international speakers, followed by a 15-minute question-and-answer session (collection available with and without transcripts).
