Amirsys Radiology Doody's Reviewed Book Collection

This collection features core diagnostic and imaging references from Amirsys, Inc. - a world-renowned source of healthcare information solutions in radiology, pathology, and anatomy - that are available on the Ovid platform and that have been recommended by medical librarians and medical content specialists with Doody's Review Service™, a medical book quality assessment service.

This comprehensive collection is a great way for medical libraries—especially institutions with limited budgets—to quickly expand their e-resource collection with some of the most highly regarded books in diagnostic radiology and imaging.

Each title has been given a 3-, 4-, or 5 Doody’s Star Rating®, signifying exceptional quality. The Doody’s Star Rating® correlates to a numerical score derived from a questionnaire completed by the reviewer in the course of assessing the title. (Five stars is the highest rating a book can receive.) The rating system helps ensure that each review is as fair and as objective as possible.

Please note that Diagnostic Imaging: Genitourinary is not available individually but only as part of a collection.

Publisher
Amirsys, Inc.

What's Included
- Diagnostic and Surgical Imaging Anatomy: Brain, Head & Neck, Spine
- Diagnostic and Surgical Imaging Anatomy: Musculoskeletal
- Diagnostic and Surgical Imaging Anatomy: Ultrasound
- Diagnostic Imaging: Brain
- Diagnostic Imaging: Genitourinary
- Diagnostic Imaging: Head and Neck
- Diagnostic Imaging: Musculoskeletal Non-Traumatic Disease
- Diagnostic Imaging: Nuclear Medicine
- Diagnostic Imaging: Obstetrics
- Diagnostic Ultrasound: Abdomen and Pelvis
- Diagnostic Ultrasound: Head and Neck
- Diagnostic Ultrasound: Musculoskeletal
- Imaging Anatomy: Chest, Abdomen, Pelvis
- Imaging in Neurology
- Osborn's Brain: Imaging, Pathology, and Anatomy
- Radiation Oncology: Imaging and Treatment
- Specialty Imaging: Breast MRI
- Specialty Imaging: Gastrointestinal Oncology
- Specialty Imaging: Genitourinary Oncology
- Specialty Imaging: Pain Management
- Specialty Imaging: Pitfalls and Classic Signs of the Abdomen and Pelvis
Specialty Imaging: Postoperative Spine
Specialty Imaging: Temporomandibular Joint
Specialty Imaging: Thoracic Neoplasms
