Over 50 premium books from some of the world's leading medical and health science publishers that have been designated as Doody's Core Titles™ by healthcare professionals and medical librarians.

This comprehensive collection is a great way for medical libraries—especially institutions with limited budgets—to quickly expand their e-resource collection with some of the most highly regarded books in radiology and pathology.

Doody’s Core Titles have been selected by academically-affiliated healthcare professionals and medical librarians, and are considered must-have resources for practitioners, researchers, and students.

A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline. Up to three librarians score each title on a score of 0-3 in five fundamental collection development criteria: authoritativeness of author and publisher; scope and coverage of the subject matter; quality of content (including timeliness); usefulness and purpose; and value of money. Scores are averaged to provide an overall score for each title.

Doody’s Review Service is a leading source for expert, authoritative quality assessment and collection development tools for medical, nursing, and allied health books.

What's Included

- Avoiding Errors in Radiology: Case-Based Analysis of Causes and Preventive Strategies
- Basic Clinical Radiobiology
- Biopsy Interpretation of the Breast
- Diagnostic Imaging: Brain
- Diagnostic Ophthalmology
- Diagnostic Pathology: Breast
- Diagnostic Pathology: Endocrine
- Diagnostic Pathology: Gastrointestinal
- Diagnostic Pathology: Genitourinary
- Diagnostic Pathology: Head and Neck
- Diagnostic Pathology: Hepatobiliary and Pancreas
- Diagnostic Pathology: Infectious Diseases
- Diagnostic Pathology: Kidney Diseases
- Diagnostic Pathology: Lymph Nodes and Spleen with Extranodal Lymphomas
- Diagnostic Pathology: Molecular Oncology
- Diagnostic Pathology: Neoplastic Dermatopathology
- Diagnostic Pathology: Neuropathology
- Diagnostic Pathology: Nonneoplastic Dermatopathology
Diagnostic Pathology: Pediatric Neoplasms  
Diagnostic Pathology: Placenta  
Diagnostic Pathology: Soft Tissue Tumors  
Diagnostic Pathology: Vascular  
EXPERTddx: Musculoskeletal  
Gastrointestinal Pathology: An Atlas and Text  
Greenfield's Neuropathology  
Gynecologic Radiation Oncology: A Practical Guide  
Head and Neck Cancer: A Multidisciplinary Approach  
Head and Neck Pathology  
Head and Neck Pathology (Consultant Pathology)  
Histology for Pathologists  
Human Radiation Injury  
Image-Guided and Adaptive Radiation Therapy  
Khan's Treatment Planning in Radiation Oncology  
Nuclear Medicine Instrumentation  
Pediatric Radiation Oncology  
Perez & Brady's Principles and Practice of Radiation Oncology  
Perez and Brady's Principles and Practice of Radiation Oncology  
Physics of Radiation Therapy, The  
Practical Radiotherapy Planning  
Pulmonary Pathophysiology: The Essentials  
Radiation Oncology: Imaging and Treatment  
Radiation Oncology: Management Decisions  
Rosen's Breast Pathology  
Schuknecht's Pathology of the Ear  
Sternberg's Diagnostic Surgical Pathology  
Stocker and Dehner's Pediatric Pathology  
Treatment Planning in Radiation Oncology
