Economical package of more than 200 books in agriculture, food science, and related disciplines published between 2000-2004.

CAB International is one of the world's leading sources of full-text scholarly literature in agriculture, public health, and food and environmental sciences.

This collection contains more than 200 titles (with over 4,000 chapters) and covers the following scientific specialties and subject areas: Agriculture, Animal & Veterinary Science, Environmental Science, Plant Science, Human & Food Science, Plant Science, and Leisure & Tourism.

Please note that the books in this collection are not available individually.

Publisher: CAB International

What's Included:
- A Bond Scheme for Common Agricultural Policy Reform
- Agricultural Biotechnology and Transatlantic Trade
- Agricultural Research Policy in an Era of Privatization
- Agricultural Technologies and Tropical Deforestation
- Agriculture and Intellectual Property Rights
- Agriculture and International Trade
- Agriculture, Hydrology and Water Quality
- Air Pollution and the Forests of Developing and Rapidly Industrialising Countries
- Allium Crop Science
- Amino Acids in Animal Nutrition
- Animal Domestication and Behaviour
- Animal Health and Welfare in Organic Agriculture
- Apples
- Applied Animal Endocrinology
- Aquaculture and Fisheries Biotechnology
- Bacteria from Fish and Other Aquatic Animals
- Banana Wars
- Below-ground Interactions in Tropical Agroecosystems
- Benchmarking in Tourism and Hospitality Industries
- Bioassays of Entomopathogenic Microbes and Nematodes
- Biodiversity of West African Forests
- Biological Control in IPM Systems
- Biological Control Programmes in Canada, 1981-2001
- Biostatistics for Animal Science
- Biotechnology of Fruit and Nut Crops
- Biotic Interactions in Plant-pathogen Associations
- CAP Regimes and the European Countryside
- Carbohydrates in Grain Legume Seeds
- Case Studies in Ecotourism
Cassava
Central and Eastern European Agriculture in an Expanding European Union
Chemical Pesticide Markets, Health Risks and Residues
Climate Change and Global Crop Productivity
Climate Change in Contrasting River Basins
Communicable Disease Epidemiology and Control
Competition and Succession in Pastures
Conflict, Social Capital and Managing Natural Resources
Consumer Acceptance of Genetically Modified Foods
Coping with Risk in Agriculture
Criteria and Indicators for Sustainable Forest Management
Crocodiles
Crop Pollination by Bees
Crop Science
Crop Variety Improvement and Its Effect on Productivity
Crop-soil Simulation Models
Cultural Attractions and European Tourism
Cycad Classification
Dairy Sheep Nutrition
Desiccation and Survival in Plants
Destination Benchmarking
Digestive Physiology of Pigs
Diseases and Disorders of Finfish in Cage Culture
Diseases of Tropical Fruit Crops
Dogs, Zoonoses and Public Health
Dormancy in Plants
Economic and Social Issues in Agricultural Biotechnology
Ecotourism Policy and Planning
Ecotourism Programme Planning
Employment Dynamics in Rural Europe
Encyclopedia of Ecotourism, The
Entomopathogenic Nematology
Environmental Change and Geomorphic Hazards in Forests
Environmental Impacts of Ecotourism
Environmental Impacts of Agricultural Biotechnology
Environmental Policies for Agricultural Pollution Control
Environmental Risk Assessment of Genetically Modified Organisms, Volume 1: A Case Study of Bt Maize in Kenya
Enzymes in Farm Animal Nutrition
Evaluating Indirect Ecological Effects of Biological Control
Farm Animal Metabolism and Nutrition
Farmers, Scientists and Plant Breeding
Fetal Nutrition and Adult Disease
Field and Laboratory Methods for Grassland and Animal Production Research
Fire Blight
Fluorides in the Environment
Food Safety
Food Safety and International Competitiveness
Forage Evaluation in Ruminant Nutrition
Forest Biodiversity
Forest History
Forest Policy for Private Forestry
Forest Tourism and Recreation
Forestry Budgets and Accounts
Forests and Landscapes
Forests at the Land
Forests in Sustainable Mountain Development
Fungi as Biocontrol Agents
Ganoderma Diseases of Perennial Crops
Genetics, Evolution and Biological Control
GIS and Spatial Analysis in Veterinary Science
Global Rangelands
Globalization and the Developing Countries
Good Statistical Practice for Natural Resources Research
Grassland Ecophysiology and Grazing Ecology
Grazing Ecology and Forest History
Growth of Farm Animals
Health, Nutrition and Food Demand
Hemp Diseases and Pests
Improving Tourism and Hospitality Services
Insect Movement
Insects on Palms
Integrated Natural Resources Management
Integrated Pest Management
Integrated Pest Management in the Global Arena
Integrated plant nutrient management in sub-Saharan Africa
Integrated Resource and Environmental Management
Intellectual Property Rights in Animal Breeding and Genetics
Introgression from Genetically Modified Plants into Wild Relatives
Invasive Alien Species
Invertebrates as Webmasters in Ecosystems
Laboratory Production of Cattle Embryos
Leisure and Tourism Policy and Planning
Leisure Education, Community Development and Populations with Special Needs
Livestock Handling and Transport
Lyme Borreliosis
Macrocyclic Lactones in Antiparasitic Therapy
Managing Plant Genetic Diversity
Managing Soil Quality
Market Development for Genetically Modified Foods
Measuring and Auditing Broiler Welfare
Meat Science
Methods and Approaches in Forest History
Methods in Agricultural Chemical Analysis
Mites of Greenhouses
Modelling Forest Systems
Modelling Nutrient Utilization in Farm Animals
Molecular Nutrition
Molluscs as Crop Pests
Muscle Development of Livestock Animals
Natural Enemies of Terrestrial Molluscs
Natural Resource Management in Agriculture
Natural Resources Management in African Agriculture
Nature-Based Tourism, Environment and Land Management
Nematode Parasites of Vertebrates
Nematology: advances and perspectives. Volume 2: Nematode management and utilization
New Horizons in Tourism
Nitrate and Man: Toxic, Harmless or Beneficial?
Nitrogen Fixation
Nitrogen Fixation in Tropical Cropping Systems
Nutrient Elements in Grassland
Nutrient Requirements and Feeding of Finfish for Aquaculture
Nutrients for Sugar Beet Production
Nutrition and Immune Function
Organic Fruit Growing
Parasitic Nematodes
Persistence and Change in Rural Communities
Phoma Identification Manual
Planning Agricultural Research
Plant Diversity and Evolution
Plant Evolution and the Origin of Crop Species
Plant Genotyping
Plant Pathologists’ Pocketbook, 3rd Edition
The Ecology and Silviculture of Oaks
The Ecology of Soil Decomposition
The Ethology of Domestic Animals
The Family Business in Tourism and Hospitality
The Genetics of the Dog
The Genetics of the Horse
The Impact of Carbon Dioxide and Other Greenhouse Gases on Forest Ecosystems
The Mineral Nutrition of Livestock, 3rd Edition
The Pineapple
The Regulation of Agricultural Biotechnology
The Sustainable Management of Vertisols
The Tourist as a Metaphor of the Social World
The Trypanosomiases
The Weaner Pig
Tourism and Development in Mountain Regions
Tourism and the Less Developed World
Tourism and Transition
Tourism Ecolabelling
Tourism in Destination Communities
Tourism in National Parks and Protected Areas
Tourism in Western Europe
Tradeoffs or Synergies
Trees on the Farm
Trees, Crops and Soil Fertility
Tropical Fruit Pests and Pollinators
Tropical Mycology: Volume 1
Tropical Mycology: Volume 2
Tylenchida
Verticillium Wilts
Volunteer Tourism
Volunteering as Leisure / Leisure as Volunteering
Waste Composting for Urban and Peri-urban Agriculture
Wastewater Use in Irrigated Agriculture
Water Dynamics in Plant Production
Water Productivity in Agriculture
Weed Ecology in Natural and Agricultural Systems
Weeds and Weed Management on Arable Land
Welfare of the Laying Hen
Western Corn Rootworm
Worms and Human Disease
