## CAB Animal &amp; Veterinary Science Book Collection

Rely on Ovid as the trusted solution that transforms research into results

One-click access to more than 100 books covering numerous animal types and relevant issues.

CABI is one of the world's leading sources of full-text scholarly literature in agriculture, public health, and food and environmental sciences.

The CABI Animal & Veterinary Science Book Collection is comprised of more than 100 books covering numerous animal types—from mammals to insects to amphibians—as well as important issues surrounding the production and care of livestock.

This collection is updated continuously as additional books become available.

Titles included:

A Handbook for the Sheep Clinician, 7th Edition  
 Agricultural Biotechnology and Intellectual Property Protection  
 Agriculture, Hydrology and Water Quality  
 Alternative Systems for Poultry. Health, Welfare and Productivity. Poultry Science Symposium Series, Vol. 30  
 Amino Acids in Animal Nutrition  
 Animal Abuse: Helping Animals and People  
 Animal Domestication and Behaviour  
 Animal Health and Welfare in Organic Agriculture  
 Applied Animal Endocrinology  
 Aquaculture and Fisheries Biotechnology  
 Aquaculture and Fisheries Biotechnology; Genetic Approaches, 2nd Edition  
 Aquatic Insects: Challenges to Populations  
 Areawide Pest Management: Theory and Implementation  
 Avian Gut Function, Health and Diseases  
 Bacteria from Fish and Other Aquatic Animals  
 Bioassays of Entomopathogenic Microbes and Nematodes  
 Biological Control Programmes in Canada, 1981-2001  
 Biology of Breeding Poultry. Poultry Science Symposium Series, No. 29  
 Biorational Tree-Fruit Pest Management  
 Biostatistics for Animal Science  
 Breeding for Disease Resistance in Farm Animals, 3rd Edition  
 Camel Meat and Meat Products  
 China's Livestock Revolution  
 Crocodiles  
 Crop Pollination by Bees  
 Dairy Goats Feeding and Nutrition  
 Dairy Herd Health  
 Dairy Sheep Nutrition  
 Deafness in Cats and Dogs  
 Dietary Supplements for the Health and Quality of Cultured Fish  
 Digestive Physiology of Pigs  
 Diseases and Disorders of Finfish in Cage Culture  
 Dogs, Zoonoses and Public Health  
 Dogs, Zoonoses and Public Health

Domestic Duck Production: Science and Production  
Ecologically-based Integrated Pest Management  
Entomopathogenic Nematology  
Environmental Policies for Agricultural Pollution Control  
Environmental Risk Assessment of Genetically Modified Organisms, Volume 3.  
Methodologies for Transgenic Fish  
Enzymes in Farm Animal Nutrition  
Enzymes in Farm Animal Nutrition, 2nd Edition  
Evaluating Indirect Ecological Effects of Biological Control  
External Parasites of Small Ruminants  
Farm Animal Medicine and Surgery for Small Animal Veterinarians  
Farm Animal Metabolism and Nutrition  
Feeding in Domestic Vertebrates From Structure to Behaviour  
Field and Laboratory Methods for Grassland and Animal Production Research  
Finfish Aquaculture Diversification  
Fish Diseases and Disorders Volume 3, Second Edition: Viral, Bacterial and Fungal Infections  
Fish Diseases and Disorders, Vol. 2, 2nd Edition  
Fish Diseases and Disorders, Volume 1, 2nd edition: Protozoan and Metazoan Infections  
Fish Parasites. Pathobiology and Protection  
Fisheries Co-management  
Fluorides in the Environment  
Forage Evaluation in Ruminant Nutrition  
Freshwater Nematodes  
Genetics of the Dog. 2nd Edition. Genetics Series  
GIS and Spatial Analysis in Veterinary Science  
Goat Meat Production and Quality  
Grassland Ecophysiology and Grazing Ecology  
Grazing Ecology and Forest History  
Greenhouse Gas Sinks  
Growth of Farm Animals  
Hemp Diseases and Pests  
Hormonal Regulation of Farm Animal Growth  
Human-Livestock Interactions, 2nd Edition. The Stockperson and the Productivity and Welfare of Intensively Farmed Animals  
Industrial Crops and Uses  
Insect Conservation Biology  
Insect Evolutionary Ecology  
Insect Movement  
Insect Pathogens: Molecular Approaches and Techniques  
Insect Pest Management, Edition 2.  
Insects on Palms  
Integrated Food Safety and Veterinary Public Health  
Intellectual Property Rights in Animal Breeding and Genetics  
Invasive Alien Species  
Invertebrates as Webmasters in Ecosystems  
Laboratory Production of Cattle Embryos  
Linear Models for the Prediction of Animal Breeding Values  
Livestock Handling and Transport

Livestock Handling and Transport, 3rd Edition  
Long Distance Transport and Welfare of Farm Animals  
Lyme Borreliosis  
Macrocyclic Lactones in Antiparasitic Therapy  
Mammalian Genomics  
Mastitis Control in Dairy Herds. 2nd Edition  
Mathematical Modelling in Animal Nutrition  
Measuring and Auditing Broiler Welfare  
Meat Science: An Introductory Text  
Mechanistic Modelling in Pig and Poultry Production  
Methods in Agricultural Chemical Analysis  
Mineral Nutrition of Livestock, 4th Edition  
Modelling Nutrient Utilization in Farm Animals  
Molecular and Physiological Basis of Nematode Survival  
Muscle Development of Livestock Animals  
Mycoplasma Diseases of Ruminants  
Mycotoxins: Detection Methods, Management, Public Health and Agricultural Trade  
Nematode Behaviour  
Nematode Parasites of Vertebrates  
Nematodes as Environmental Indicators  
Nematology: advances and perspectives. Volume 2: Nematode management and utilization  
Nitrogen and Phosphorus Nutrition of Cattle  
Nutrient Digestion and Utilization in Farm Animals  
Nutrient Elements in Grassland  
Nutrient Requirements and Feeding of Finfish for Aquaculture  
Nutrition and Feeding of Organic Cattle  
Nutrition and Feeding of Organic Pigs  
Nutrition and Feeding of Organic Poultry  
Nutrition of the Rabbit, 2nd Edition  
Parasitic Flatworms: Molecular Biology, Biochemistry, Immunology and Physiology  
Parasitic Nematodes  
Paratuberculosis: Organism, Disease, Control  
Pest Management and Phytosanitary Trade Barriers  
Phosphorus and Calcium Utilization and Requirements in Farm Animals  
Poisoning by Plants, Mycotoxins and Related Toxins  
Poisonous Plants and Related Toxins  
Poultry Feedstuffs  
Poultry Genetics, Breeding and Biotechnology  
Poultry Production in Hot Climates, 2nd Edition  
Prioritizing Agricultural Research for Development: Experiences and Lessons  
Protein Turnover  
Protozoal Abortion in Farm Ruminants  
Public Concerns, Environmental Standards and Agricultural Trade  
Quality Control and Production of Biological Control Agents  
Quantitative Aspects of Ruminant Digestion and Metabolism  
Quantitative Genetics, Genomics and Plant Breeding  
Quantitative Trait Loci Analysis in Animals  
Rabbit Production

Radar Entomology: Observing Insect Flight and Migration  
Redesigning Animal Agriculture. The Challenge of the 21st Century  
Reproductive Technologies in Farm Animals  
Resource Allocation Theory Applied to Farm Animal Production  
Responsible Marine Aquaculture  
Root Feeders: An Ecosystem Approach  
Ruminant Physiology  
Salmonella in Domestic Animals  
Sheep Nutrition  
Small-Scale Fisheries Management. Frameworks and Approaches for the Developing World.  
Social Behaviour in Farm Animals  
Stereotypic Animal Behaviour, 2nd Edition  
Sustainable Livestock Management for Poverty Alleviation and Food Security  
Taenia Solium Cysticercosis  
The Behavioural Biology of Dogs  
The Behavioural Ecology of Parasites  
The Biology of Animal Stress  
The Biology of Mosquitoes Volume 3: Transmissions of Viruses and Interactions with Bacteria  
The Biology of Terrestrial Molluscs  
The Biology of Wetas, King Crickets and Their Allies  
The Economics of Animal Health and Production  
The Economics of Livestock Disease Insurance: Concepts, Issues and International Case Studies  
The Ecosystem Approach to Fisheries  
The Encyclopedia of Farm Animal Nutrition  
The Ethology of Domestic Animals  
The Genetics of the Dog  
The Genetics of the Horse  
The Genetics of the Pig, 2nd Edition  
The Mineral Nutrition of Livestock, 3rd Edition  
The Oestrid Flies: Biology, Host-Parasite Relationships, Impact and Management  
The Regulation of Agricultural Biotechnology  
The Trypanosomiases  
The Weaner Pig  
Ticks and Tick-borne Diseases: Geographical Distribution and Control Strategies in the Euro-Asia Region  
Tilapia Culture  
Toxocara: The Enigmatic Parasite  
Tropical Deltas and Coastal Zones  
Tylenchida  
Urban Aquaculture  
Urban Pest Management. An Environmental Perspective  
Veterinary Treatment for Working Equines  
Veterinary Treatment of Llamas and Alpacas  
Veterinary Treatment of Sheep and Goats  
Voluntary Food Intake and Diet Selection in Farm Animals. Second Edition  
Welfare of the Laying Hen
