A combination of textbooks on the fundamentals of pharmaceutical science, video clips, and case studies—ideal for use in the first 2 years of a PharmD curriculum.

Features:
- 20 core textbooks for pharmacy students and practitioners
- Robust video library with professional resources covering Pathology/Pathophysiology, Pharmacy Practice, Physical Examination, and Physiology
- Full book chapters are printable and can be shared with colleagues and students
- Books are continually updated with the most current edition
- Sophisticated semantic search and user-friendly navigation

Please note we always add new editions as soon they are published. That means multiple editions of a book may be available. Books in this collection include the following (be sure to visit Health Library: User Central for the most up-to-date list):
