Here's the world's broadest and most complete engineering literature database, providing a truly holistic and global view of peer-reviewed and indexed publications - nearly 19 million records from 76 countries across 190 engineering disciplines.

Every record is carefully selected and indexed using the Engineering Index Thesaurus to ensure discovery and retrieval of engineering-specific literature that engineering students and professionals can rely on. By using Ei Compendex, engineers can be confident information is relevant, complete, accurate and of high quality.

Compendex Quick Facts:
- 18.8 million records from 1970-present (backfile available, too!)
- 190 engineering disciplines covered - electrical engineering, general engineering, civil engineering, chemical engineering, mechanical engineering, mining, and more
- Publications from over 75 countries and from more than 2,000 publishers
- Over 25,000 records added weekly
- Nearly 11 million journal articles, more than 6 million conference papers

Publisher: Engineering Information, Inc.
Platform: Ovid
Product Type: Database
Speciality: General Engineering & Technology
General Medicine
Mechanical Engineering & Machines
Language: English
Frequency: Monthly
Coverage: 1970 - Present
Number of Records: 18.8 million
Records Added Annually: 650,000
