Current Contents is a current awareness database that provides easy access to complete tables of contents, bibliographic information, and abstracts from the most recently published issues of leading scholarly journals. Cover-to-cover, expert indexing provides accurate access to all the information available in journals, not just articles.

Current Contents Search is the online version of Thomson Scientific’s popular Current Contents series of publications. Current Contents is a weekly service that reproduces the tables of contents from current issues of leading journals in the sciences, social sciences, and arts and humanities. Current Contents Search consists of seven subsets based on Current Contents editions:

- Agriculture, Biology and Environmental Sciences
- Arts and Humanities
- Clinical Medicine
- Engineering, Technology and Applied Sciences
- Life Sciences
- Physical, Chemical and Earth Sciences
- Social and Behavioral Sciences
