Current Contents® - Science Edition

Current Contents is a current awareness database that provides easy access to complete tables of contents, bibliographic information, and abstracts from the most recently published issues of leading scholarly journals. Cover-to-cover, expert indexing provides accurate access to all the information available in journals, not just articles.

Current Contents - Science Edition covers all the Science editions of the Current Contents Search database in one package accessible on the Ovid platform. These include: Life Sciences; Clinical Medicine; Agricultural, Biological and Environmental Sciences; Engineering, Technology, and Applied Sciences; and Physical, Chemical and Earth Sciences.
