Current Contents is a current awareness database that provides easy access to complete tables of contents, bibliographic information, and abstracts from the most recently published issues of leading scholarly journals. Cover-to-cover, expert indexing provides accurate access to all the information available in journals, not just articles.

- Clinical Medicine provides easy access to complete tables of contents, abstracts, bibliographic information and all other significant items in recently published editions of leading journals.
- Life Sciences provides easy access to complete tables of contents, abstracts, bibliographic information and all other significant items in recently published issues of over top journals.
