Lasers in Surgery And Medicine

Rely on Ovid as the trusted solution that transforms research into results

Publishes the highest quality research and clinical manuscripts in areas relating to the use of lasers in medicine and biology

The journal publishes basic and clinical studies on the therapeutic and diagnostic use of lasers in all the surgical and medical specialties. Contributions regarding clinical trials, new therapeutic techniques or instrumentation, laser biophysics and bioengineering, photobiology and photochemistry, outcomes research, cost-effectiveness, and other aspects of biomedicine are included. Using a process of rigorous yet rapid review of submitted manuscripts, findings of high scientific and medical interest are published with a minimum delay.
