The Journal of Public Health Management and Practice, a bi-monthly peer-reviewed publication guided by a multidisciplinary editorial board of administrators, practitioners and scientists, publishes articles which focus on evidence based public health practice and research.

The Journal of Public Health Management and Practice publishes in a wide range of population health topics including research to practice; emergency preparedness; bioterrorism; infectious disease surveillance; environmental health; community health assessment, chronic disease prevention and health promotion, and academic-practice linkages.

Recognized as the leading practice based public health journal, the Journal of Public Health Management and Practice has recently published focus issues defining the public health workforce, performance management and bridging the research to practice gap.
