

Ovid® Toxicon

Rely on Ovid as the trusted solution that transforms research into results

Official Journal of The International Society on Toxinology

The journal aims to publish:

- *Articles containing the results of original research on problems related to toxins derived from animals, plants and microorganisms
- *Papers on novel findings related to the chemical, pharmacological, toxicological, and immunological properties of natural toxins
- *Molecular biological studies of toxin and other genes from poisonous and venomous organisms that advance understanding of the role or function of toxins
- *Clinical observations on poisoning and envenoming where a new therapeutic principle has been proposed or a decidedly superior clinical result has been obtained
- *Material on the use of toxins as tools in studying biological processes and material on subjects related to venom and antivenom problems
- *Review articles on problems related to toxinology.

Impact Factor	2.352
ISI JCR Ranking	140/261 (PHARMACOLOGY & PHARMACY), 53/94 (TOXICOLOGY)
Author/Editor	Harvey, Alan L.
Publisher	Elsevier
ISSN	0041-0101
Platform	Ovid
Product Type	Journal
Speciality	Toxicology
Language	English
Frequency	16 Times a Year
Coverage	Vol 41 #1 - Present
PDF Coverage	Vol 41 #1 - Present
