Clinical Orthopaedics and Related Research

Devoted to disseminating new and important orthopaedic knowledge, Clinical Orthopaedics and Related Research® is a leading peer-reviewed orthopaedic journal and a publication of The Association of Bone and Joint Surgeons®.

CORR® brings readers the latest clinical and basic research and informed opinions that shape today’s orthopaedic practice, thereby providing an opportunity to practice evidence-based medicine. With contributions from leading clinicians and researchers around the world, we aim to be the premier journal providing an international perspective advancing knowledge of the musculoskeletal system.

CORR® publishes content of value to both generalists and specialists on all aspects of musculoskeletal research, diagnoses, and treatment: Original articles focusing on timely clinical issues. Research articles providing the latest in basic biological or engineering research on musculoskeletal diseases. Monthly "Symposia" devoted to a single topic offering the generalist reader an overview of a field, but providing the specialist current in-depth information. Editor’s Spotlight/Take 5, a monthly installment delving into published articles through interviews with the authors. CORR Insights® expanding on topics with commentary by invited experts. Regular columns by topical experts discussing issues and opening conversations affecting the field of orthopaedics. Archives are available for purchase.
