This official journal of the American Academy of Neurology features best practices, evidence-based research and articles on topics that directly affect practicing neurologists - AVAILABLE ONLY AS PART OF THE NEUROLOGY AND NEUROLOGY: CLINICAL PRACTICE BUNDLE

As the leading clinical neurology journal worldwide, Neurology is directed to physicians concerned with diseases and conditions of the nervous system. The journal's purpose is to advance the field by presenting new basic and clinical research with emphasis on knowledge that will influence the way neurology is practiced. The journal is at the forefront in disseminating cutting-edge, peer-reviewed information to the neurology community worldwide.

Editorial content includes full-length Articles, Clinical/Scientific Notes, Views & Reviews (including Medical Hypothesis papers), Issues of Neurological Practice, Historical Neurology, NeuroImages, Humanities, Disputes & Debates: Editors' Choice, and position papers from the American Academy of Neurology. Contents appearing solely online include the Patient Page, CME Quizzes, Podcasts, and play-in-place video for specific articles. The online version is considered the canonical version of the journal because it includes all content available to the reader.

This journal is available only as part of the Neurology and Neurology: Clinical Practice Bundle; it is not available separately.

Subscribers to Neurology also have access to Neurology: Neuroimmunology & Neuroinflammation and Neurology: Genetics.
