The Pediatric Infectious Disease Journal® (PIDJ), the official publication of the Pediatric Infectious Diseases Society and the European Society for Paediatric Infectious Diseases, is a complete, up-to-the-minute resource on infectious diseases in children.

Through a mix of original studies, informative review articles, unique case reports, and "Yellow Pages" of late-breaking news, PIDJ delivers the latest insights on combating disease in children — from state-of-the-art diagnostic techniques to the most effective drug therapies and other treatment protocols. It is a resource that can improve patient care and fuel your personal research.
