Easy-to-digest reviews on important advances in world literature

Current Opinion in Infectious Diseases offers expert evaluation on a wide range of topics from eleven key disciplines, including HIV infections and AIDS, skin and soft tissue infections, and respiratory infections. Published bimonthly, each issue covers in detail the most pertinent advances in these fields from the previous year. Every issue also contains an in-depth bibliography gleaned from several hundred top journals in the field, complete with annotations detailing the merits of the most important papers.
