Circulation: Arrhythmia and Electrophysiology

Rely on Ovid as the trusted solution that transforms research into results

This American Heart Association journal publishes high-quality, clinically relevant articles focusing on advances in the understanding of pathophysiology, diagnosis, and treatment of cardiac arrhythmias.

The journal reflects the rapid evolution of cardiac electrophysiology as a discipline in its own right, and presents critical new research on topics related to clinical applications such as devices for arrhythmia management, catheter ablation, the pathophysiology of the arrhythmia substrate, and novel biologic therapies.
