## Endocrinologist, The

Rely on Ovid as the trusted solution that transforms research into results

Designed primarily as a tool for clinicians, The Endocrinologist

brings readers information about new discoveries—in endocrinology, diabetes, metabolism, reproduction, growth and development—in a form that's directly applicable to clinical practice.

Category 1 CME credits are also available. Regular sections report on adrenal gland, bone and mineral, neuroendocrinology, diabetes mellitus, growth and development, lipids and metabolism, thyroid gland, reproduction, and more.

Please note that while this journal has ceased publication, an archive is available for purchase, and the closed frontfile is available in collections only.
