Regional Anesthesia & Pain Medicine

Official publication of the American, European, Asian and Oceanic, and Latin American Societies of Regional Anesthesia.

This is a bimonthly journal that publishes peer-reviewed scientific and clinical studies to advance the understanding and clinical application of regional techniques for surgical anesthesia and postoperative analgesia. Coverage includes intraoperative regional techniques, perioperative pain, chronic pain, obstetric anesthesia, pediatric anesthesia, outcome studies, and complications. The journal has a special interest in all forms of research pertaining to ultrasound-guided regional anesthesia and to education in regional anesthesia and pain medicine.
