Nicotine and Tobacco Research

Sponsored by the Society for Research on Nicotine and Tobacco (SRNT), Nicotine & Tobacco Research is one of the world's few peer-reviewed journals devoted exclusively to the study of nicotine and tobacco.

Nicotine & Tobacco Research aims to provide a forum for empirical findings, critical reviews, and conceptual papers on the many aspects of nicotine tobacco, including research from the biobehavioral, neurobiological, molecular biologic, epidemiological, prevention, and treatment arenas.

Along with manuscripts from each of the areas mentioned above, the editors encourage submissions that are integrative in nature and that cross traditional disciplinary boundaries.

Impact Factor: 4.609
ISI JCR Ranking: 2/34 (SUBSTANCE ABUSE), 5/157 (PUBLIC, ENVIRONMENTAL & OCCUPATIONAL HEALTH)
