## Journal of Nursing Measurement

---

Rely on Ovid as the trusted solution that transforms research into results

This is the only journal that specifically addresses instrumentation in nursing.

The Journal of Nursing Measurement serves as a prime forum for disseminating information on instruments, tools, approaches, and procedures developed or utilized for measuring variables in nursing—spanning practice, research, and education. Particular emphasis is placed on evidence for the reliability and validity or sensitivity and specificity of such instruments. The journal includes innovative discussions of theories, principles, practices, and issues relevant to nursing measurement.
