Medical Education

Rely on Ovid as the trusted solution that transforms research into results

Medical Education provides an authoritative medium for the rapid publication of high quality research papers and review articles in the field of medical education throughout the world. All topical issues of undergraduate, postgraduate and continuing education are covered, including selection of entrants, teaching methods, assessment technique, curriculum reform, and the training of medical teachers. The Journal provides a link between the large number of bodies and individuals involved in medical education throughout the world, and it seeks to ensure that changes are made on the basis of informed decision.
