Dimensions of Critical Care Nursing

The journal's primary purpose is to provide nurses with accurate, current, and relevant information and services to excel in critical care practice.

This timely journal provides in-depth articles for critical care nurses, CCRNs, nurse educators, managers, and clinical nurse specialists and focuses on the three major roles—or dimensions—of today’s critical care nurse: practitioner, leader, and educator. The journal also publishes original nursing research. Each bimonthly issue offers these highly respected nurses a forum to exchange information with colleagues, review applications of current research, and discuss relevant legal and ethical issues.
